Confidence : 99.59%

Reported Symptoms / Problem

I have pimples and blackheads on my face

Combined AI Analysis

Final Assessment : Acne Vulgaris

Image & Symptoms Match : MATCH

Combined Confidence : Low

AI Assessment

The image prediction of Acne is consistent with the user-reported symptoms involving clogged pores, excess sebum, and bacteria typical of Acne Vulgaris. Note that neither the image model prediction nor this evaluation constitutes a confirmed medical diagnosis.

Recommended Care

Wash your face twice daily with a gentle, non-comedogenic cleanser, avoid picking or squeezing spots to reduce scarring, and keep your hair clean and off your face.

Combined Medicine Information

Over-the-counter topical treatments containing Salicylic Acid or Benzoyl Peroxide may help clear pores and reduce excess oil.

Combined Doctor Advice

Please consult a board-certified dermatologist for an accurate clinical diagnosis and a personalized treatment plan tailored to your skin.

Disease Information

Acne is a common skin condition that can occur when hair follicles become clogged with oil and dead skin cells.

Medicine / Treatment Information

Treatment depends on the type and severity of acne. Products containing ingredients such as benzoyl peroxide or salicylic acid may be used in some cases. Consult a healthcare professional for appropriate treatment.

General Care / Home Remedy

Gently clean the affected area, avoid squeezing pimples, and use non-comedogenic skincare products.

Doctor Advice

Consult a dermatologist if acne is severe, painful, persistent, or causing scarring.
