Reported Symptoms / Problem

I have pimples, blackheads and whiteheads on my face. My skin is oily and I have clogged pores.

Combined AI Analysis

Final Assessment : Acne

Image & Symptoms Match : MATCH

Combined Confidence : Low

AI Assessment

The image-model prediction of Acne strongly aligns with the user's reported symptoms of excess oil, clogged pores, blackheads, whiteheads, and pimples. Both assessments are highly consistent with Acne vulgaris. Please note that this analysis is an AI-assisted evaluation and not a confirmed medical diagnosis.

Recommended Care

Wash the affected skin twice daily using a gentle, non-comedogenic cleanser. Avoid scrubbing aggressively or picking at lesions, as this can worsen inflammation and lead to scarring. Choose oil-free, non-comedogenic skincare products and sunscreen.

Combined Medicine Information

Over-the-counter ingredients such as Salicylic Acid (to help clear clogged pores) and Benzoyl Peroxide (to target bacteria) are commonly used for mild to moderate acne. A medical professional may also recommend prescription topical retinoids or other targeted treatments if necessary.

Combined Doctor Advice

Consult a board-certified dermatologist for an in-person physical examination, a confirmed clinical diagnosis, and a personalized treatment plan appropriate for your skin.

Disease Information

Acne is a common skin condition that can occur when hair follicles become clogged with oil and dead skin cells.

Medicine / Treatment Information

Over-the-counter ingredients such as Salicylic Acid (to help clear clogged pores) and Benzoyl Peroxide (to target bacteria) are commonly used for mild to moderate acne. A medical professional may also recommend prescription topical retinoids or other targeted treatments if necessary.

General Care / Home Remedy

Wash the affected skin twice daily using a gentle, non-comedogenic cleanser. Avoid scrubbing aggressively or picking at lesions, as this can worsen inflammation and lead to scarring. Choose oil-free, non-comedogenic skincare products and sunscreen.

Doctor Advice

Consult a board-certified dermatologist for an in-person physical examination, a confirmed clinical diagnosis, and a personalized treatment plan appropriate for your skin.
