AI-Assisted Skin Analysis Report

User : Meet

Image Analysis

Prediction : Inconclusive

Confidence : 25%

Reported Symptoms / Problem

I have pimples, blackheads and whiteheads on my face. My skin is oily and I have clogged pores.

Combined AI Analysis

Final Assessment : Inconclusive

Image & Symptoms Match : MISMATCH

Combined Confidence : Low

AI Assessment

There is a significant conflict between the image model prediction and the reported symptoms. The image prediction suggests Eczema, which typically presents with dry, itchy, or inflamed patches of skin. In contrast, the reported symptoms describe oily skin, clogged pores, blackheads, whiteheads, and pimples, which are characteristic of Acne Vulgaris.

Recommended Care

Maintain a gentle daily skin hygiene routine. Cleanse the face twice daily using a mild, non-comedogenic cleanser. Avoid picking, squeezing, or scrubbing skin lesions, and refrain from using harsh or heavy products that could cause irritation or further clog pores.

Combined Medicine Information

Because the image prediction conflicts with the reported symptoms, specific targeted topical treatments or medications are not recommended at this time without prior clinical evaluation.

Combined Doctor Advice

Please consult a board-certified dermatologist for an accurate in-person diagnosis and a customized treatment plan tailored to your specific skin needs.

Disease Information

The image prediction and reported symptoms do not sufficiently match. The result is inconclusive and should not be treated as a confirmed diagnosis.

Medicine / Treatment Information

Because the image prediction conflicts with the reported symptoms, specific targeted topical treatments or medications are not recommended at this time without prior clinical evaluation.

General Care / Home Remedy

Maintain a gentle daily skin hygiene routine. Cleanse the face twice daily using a mild, non-comedogenic cleanser. Avoid picking, squeezing, or scrubbing skin lesions, and refrain from using harsh or heavy products that could cause irritation or further clog pores.

Doctor Advice

Please consult a board-certified dermatologist for an accurate in-person diagnosis and a customized treatment plan tailored to your specific skin needs.
