Image Analysis

Prediction : Acne

Confidence : 96%%

Reported Symptoms / Problem

I have small red pimples and bumps on my face. Some areas are oily and I have had these pimples for several days.

Combined AI Analysis

Final Assessment : Acne

Image & Symptoms Match : MATCH

Combined Confidence : Low

AI Assessment

The image-model prediction of Acne aligns well with the reported symptoms of small red pimples, bumps, and oily skin. While the visual and symptom data are consistent, this assessment is preliminary and not a confirmed medical diagnosis.

Recommended Care

Cleanse your skin gently twice a day with a mild, non-comedogenic cleanser. Avoid picking, squeezing, or popping pimples to prevent scarring and infection, and choose oil-free moisturizers and sunscreens.

Combined Medicine Information

Over-the-counter topical options containing benzoyl peroxide or salicylic acid may help clear clogged pores and reduce inflammation. Always read product labels carefully and consult a healthcare provider before starting new treatments.

Combined Doctor Advice

We strongly recommend consulting a certified dermatologist to obtain a definitive diagnosis and a personalized treatment plan suitable for your specific skin type.

Disease Information

Acne is a common skin condition that can occur when hair follicles become clogged with oil and dead skin cells.

Medicine / Treatment Information

Over-the-counter topical options containing benzoyl peroxide or salicylic acid may help clear clogged pores and reduce inflammation. Always read product labels carefully and consult a healthcare provider before starting new treatments.

General Care / Home Remedy

Cleanse your skin gently twice a day with a mild, non-comedogenic cleanser. Avoid picking, squeezing, or popping pimples to prevent scarring and infection, and choose oil-free moisturizers and sunscreens.

Doctor Advice

We strongly recommend consulting a certified dermatologist to obtain a definitive diagnosis and a personalized treatment plan suitable for your specific skin type.
